

Carrier / Bryant Geo Thermal Equipment Installation and Service

Here is an opportunity for all the Geo Thermal dealers to get in on local training. Rather than travel out to Oklahoma, Peirce-Phelps Inc. will put on this full **TWO day class** on the Carrier /Bryant Geo thermal equipment. This class will cover installation and service for the equipment itself and the Geo designer software, loop pressure drop software too!

Subject coverage This class is for the new and **experienced** Geo Thermal dealer.
DAY ONE Installation, startup and troubleshooting of the Carrier/Bryant Geo Thermal equipment will be covered.
DAY TWO Types of loops, Introduction and overview of the Geo Designer software and the Loop Pressure Drop Software.

Duration **Two Full Days** 8AM-4PM each day.

Cost \$450.00 per person. *Cancellations must be within two business days prior to the class to avoid being billed. "No Shows" will be billed.*

Included Morning coffee and donuts, lunch, afternoon snack break and the complete Carrier/Bryant product manuals, troubleshooting calculator, and pressure guage are included.

Where and When **Philadelphia**, 2000 North 59th St Tuesday & Wednesday October 26th & 27th 2010

Camp Hill, 490 St John's Church Rd Tuesday & Wednesday November 3rd & 4th 2010

How to sign up On line sign ups at www.Peirce.com go to "Training Classes" tab.
